OUR VISION

Be the leader of intelligent building systems solutions provider in KSA

OUR MISSION

- To spare no effort in creating solar energy & control systems solutions that exactly fit our clients' organizational requirements; solutions that are reliable, scalable, and flexible.
- To always make our clients ready should new threats loom in the future.
- To provide our clients with the services of our highly trained solar energy & Control systems experts, engineers, programmers, and technicians.
- To utilize latest state-of-the-art technologies that protects our clients' assets and well-being.

LET'S TALK ABOUT ADVANCED STABILITY

CLIENTS

INTERACTION

ADVANCED STABILITY provide maintenance services to its existing clients as well as customers who have their systems installed by other companies. Some of the services include:

- **Maintenance Contracts (Preventive & Corrective)**
- **On-Call Service Visits**
- **Inspection Visits**
- **Emergency Replacements***
- **Spare Parts Supply**

Having professional service and maintenance for your Solar energy & control systems is as important as your decision to have them in the First Place

COMPANY ACTIVITIES

- At ADVANCED STABILITY, we translate advanced technologies into value for our clients through our professional solutions and services that employ the industry's most advanced information technologies in solar & control systems.
- We have extensive know how in designing and installing Solar energy and control system, for enterprises.
- We act as a complete solutions providers as well as installation project managers.
- By assuming these roles and their responsibilities, we provide clients with convenience and effectiveness of a single point of contact toward satisfying their comfort needs.
- At ADVANCED STABILITY, our reputation rests on our know how in designing, supervising, installing, programming, servicing, and maintenance of systems

SOLUTIONS

ADVANCED STABILITY, Offers state of the art solar energy and control system from leading manufacturers I the world.
Our approach is to work closely with the customers and propose a solution matching to their requirement.

MARKET SECTORS

ADVANCED STABILITY Offers state of the art solutions from leading manufacturers in the world. Our approach is to work closely with the customer and propose a solution matching to their needs and as per the industry standards.

Solution ranges but not limited to the following sectors:

- Banking & Finance
- Military & Defense
- Industrial
- Commercial & Retail
- Hospitality
- infrastructure
- Healthcare
- Education
- Transportation
- Aviation

BMS

BUILDING MANAGEMENT SYSTEM

- **ADVANCED STABILITY** Deliver an innovative exclusive Building Management System (BMS), scalable and future-proof solution which has been specially designed to enhance system performance, drive down operational costs and aid decision making for a wide range of building services.
- **ADVANCED STABILITY** has a simplistic and intuitive solutions that allows you to manage smart cooling and other building services from any manufacturer across multiple sites through a single integrated system. It offers a wide range of control, monitoring, reporting, field devices and diagnostic tools which enable total system efficiency to be evaluated, putting the user in complete control.
- Taking building management to another level with the click of a button on a PC, tablet or phone, intelligent information can be pulled back automatically for remote 724/ control, monitoring, energy consumption management and maintenance.

BELIMO

LOW CURRENT SYSTEMS

- ADVANCED STABILITY provide complete Security & Low Current Systems solution including but not limited to (CCTV , Access Control System , Fire Alarm System , Clock , Nurse Call , MATV & IP TV , Public Address System, Data and Telephony Systems.)

FIRE ALARM SYSTEM

- ADVANCED STABILITY (STCE) provides a complete solution for fire detection, protection and prevention in accordance to international standards of NFPA, EN54- and local Civil defense authorities.
- We have over the years established our reputation by offering quality products and services in Fire Detection. Design and installation of early warning solutions for small and large applications, from stand- alone fire alarm systems to complete systems for large-scale on- or off-shore applications.
- We offer our clients fire alarm systems that are designed to provide total protection to people and property against fire and risks of fire. As part of fire alarm, we also provide linear heat detection system solution both hardwire or fiber optic cable types.

LOW CURRENT SYSTEMS

CCTV VIDEO SURVEILLANCE

We provide the most up-to-date & cost effective security solutions for all your CCTV needs, with a variety of cameras & accessories from leading manufacturers, including IP and analog CCTV. Our CCTV solutions are reliable and advanced yet user friendly.

Monitoring and protection to meet a wide range of challenges from different industries and users, from banks and office buildings to retail stores; software, digital

video records and cameras to ensure protection against intrusion, robbery, attack or sabotage.

Our wide list of products help you make the most suitable and economic choice.

ACCESS CONTROL SYSTEM

- We can offer various «Access Control Solutions», for your building. Be it stand-alone or a fully integrated system, we have the answer. From a single door, to a large-scale complex, we can provide the most up-to-date & cost effective solutions.
- We provide a complete, integrated Access Control solutions & wide range of scalable technologies and devices including swipe cards, proximity tokens, PIN entry keypads and sophisticated biometric devices and systems that provide safety, security, and convenience for applications from business and government to residential facilities.

LOW CURRENT SYSTEMS

NURSE CALL SYSTEM

- We are leaders in the design and Engineering of Nurse call systems for Health care environments. Nurse call systems are required to meet the needs of hospitals, nursing homes and assisted-living facilities, where patients/residents require calling for assistance from the proximity of their bed.
- A wide range of nurse call systems, from a basic direct-select audible-visual to the latest microprocessor-based audio/visual nurse call systems are available.
- These systems can be integrated with PBX phone systems, wireless phones and pocket pagers and other healthcare systems. The Nurse call system enhances the service provided to patients and provides the easiest and most efficient nursing attention to the patients.

PUBLIC ADDRESS & VOICE EVACUATION SYSTEM

- We offer Public Address solution from small to mid-sized to multi zone solutions. Various system elements can be combined and tailored to fit practically any application.
- We distribute various brands that provide a complete range of professional audio equipment, including amplifiers, speakers, microphones and much more. We design and distribute an extensive line of products

LOW CURRENT SYSTEMS

MASTER CLOCK SYSTEMS

- Hotels, resorts and theme attractions all form part of the hospitality and tourism offering, for which we use our design and implementation services to provide entertainment and business technology, with systems like:

GUEST ROOM MANAGEMENT SYSTEMS:

- To manage energy and atmosphere.

ACCESS CONTROL

- Manage access to hotel rooms and other areas.

GUEST ROOM CONNECTIVITY SYSTEMS

- Whatever your guest's connectivity needs... we have the solution to truly enhance your guest's stay like Multimedia hub, Power & charging hub, hotel audio and wiring devices.

IPTV SYSTEM

- Guest rooms and public TV on IP network.

NETWORK CABLING SOLUTIONS

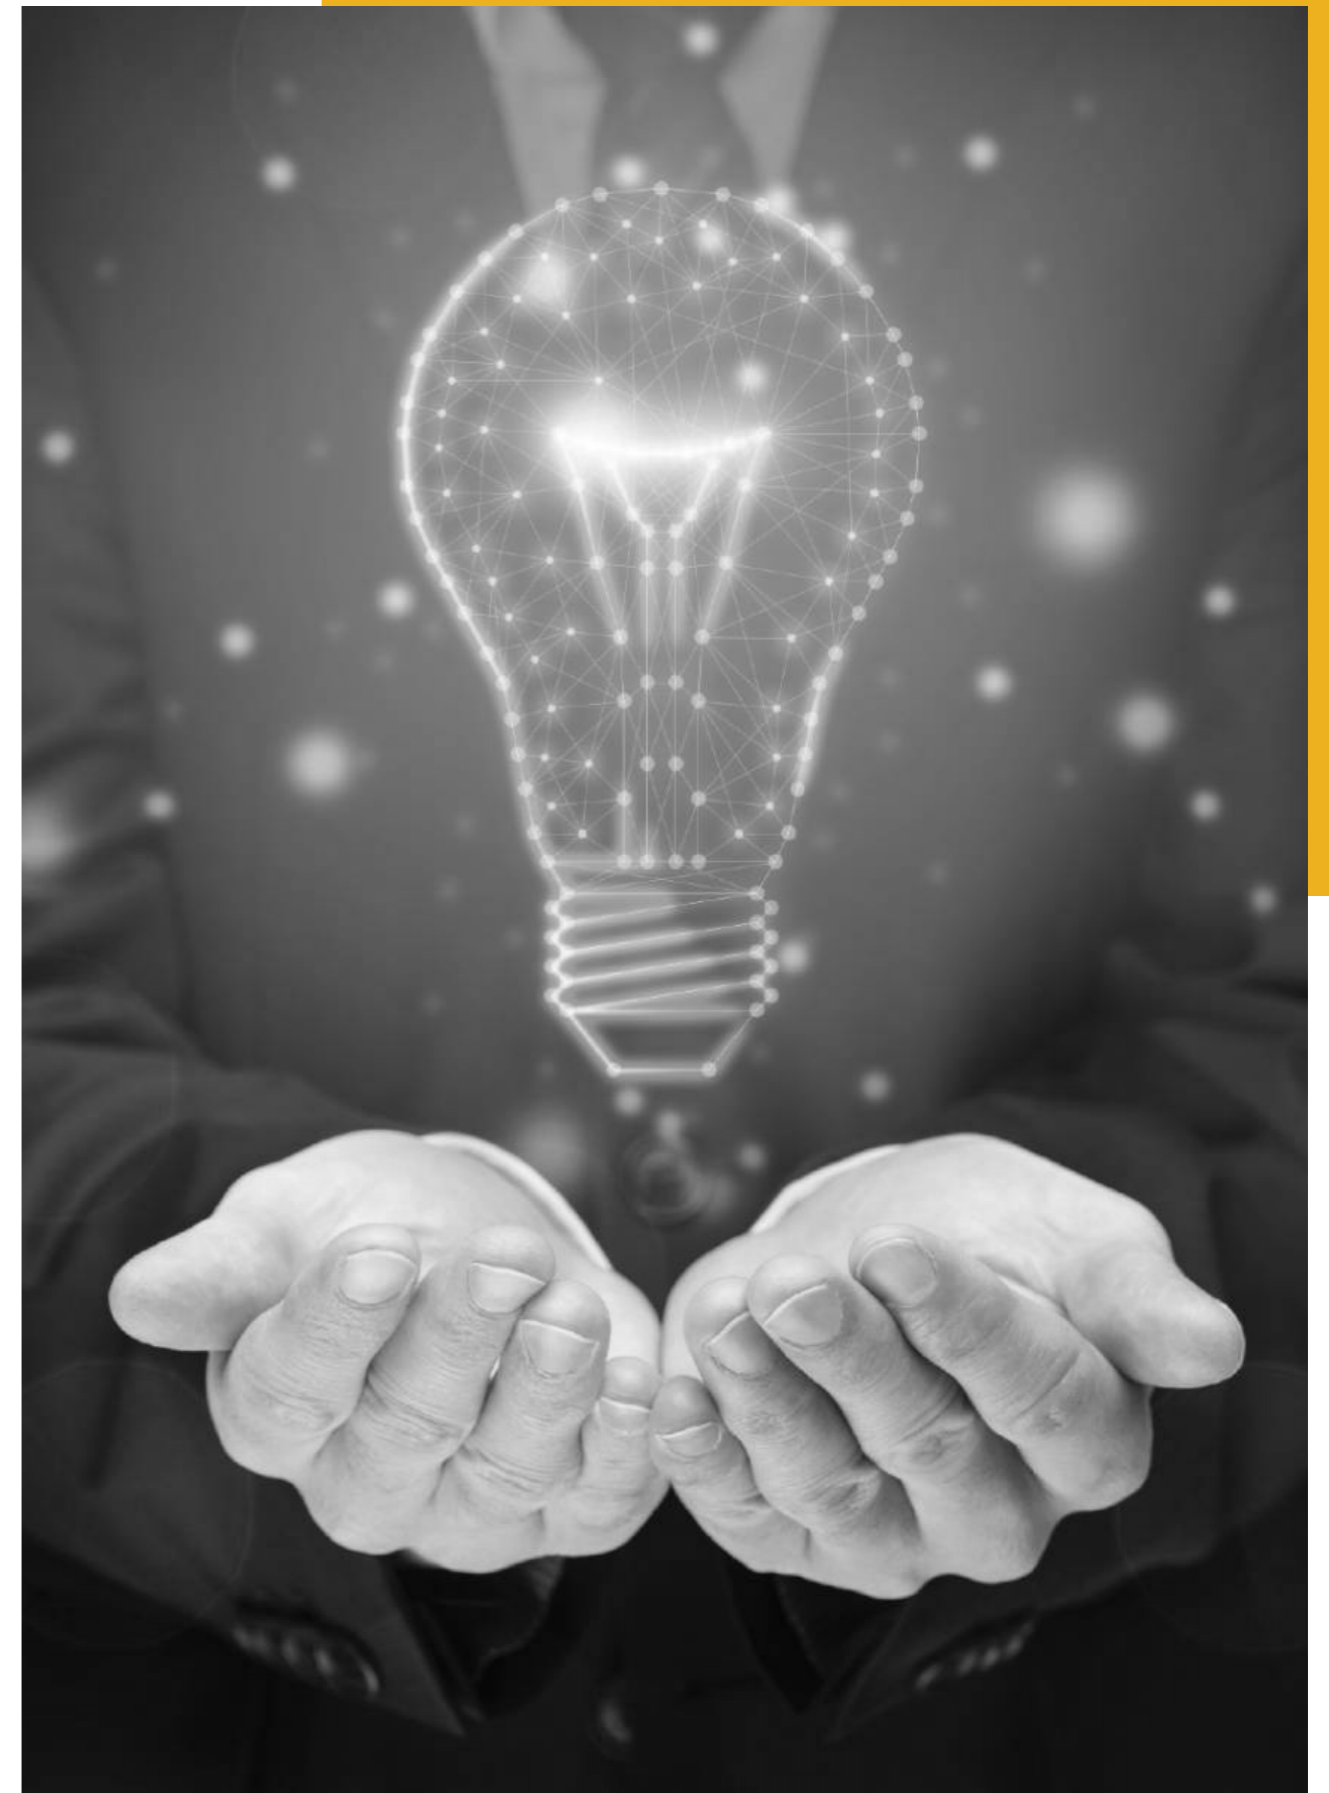

- Whether you are planning a new building, installing a new network or moving your existing computer systems, the task of laying proper cabling is the crucial part of your infrastructure for communications and computing needs.
- More and more businesses expect their systems and applications to run continually - with no downtime. That is why the infrastructure deployed has to mirror the needs of the organization and provide an on-demand backbone that is secure, reliable, flexible and manageable.

LIGHTING CONTROL SYSTEM

- ADVANCED STABILITY offers a wide variety of lighting controls that combine sophisticated design with state-of-the-art technology. These include architectural controls, daylighting controls, dimmers, fan speed controls, occupancy sensors, relay panels, timer switches and more.
- Our lighting controls provide precise, dependable control and complement any residential or commercial application, while offering the potential for significant energy savings.

SIEMENS **PHILIPS** **EATON**

ENERGY MANAGEMENT SYSTEM

- ADVANCED STABILITY offer Energy Management System is an energy-saving system which allows users to immediately monitor their energy consumption status and loading analysis, as well as optimize device operations, improve power efficiency and analyze the energy consumption of each device and system. This improves energy efficiency and power quality to achieve energy savings.
- Energy Management Systems (EMS) can improve productivity and expand production, while at the same time reduce the energy consumption of roduction and increase ec efficiency.
- After implementing an EMS, the end user is able to carry out energy planning, energy efficiency, consumption analysis, equipment and
- system management to help management make faster and better informed decisions by providing up-to-the-minute information. This lets enterprises reduce overall operating costs, maximize profitability, accelerate growth and increase asset efficiency.

HOSPITALITY & TOURISM SOLUTION

- Hotels, resorts and theme attractions all form part of the hospitality and tourism offering, for which we use our design and implementation services to provide entertainment and business technology, with systems like:
- GUEST ROOM MANAGEMENT SYSTEMS To manage energy and atmosphere.

ACCESS CONTROL

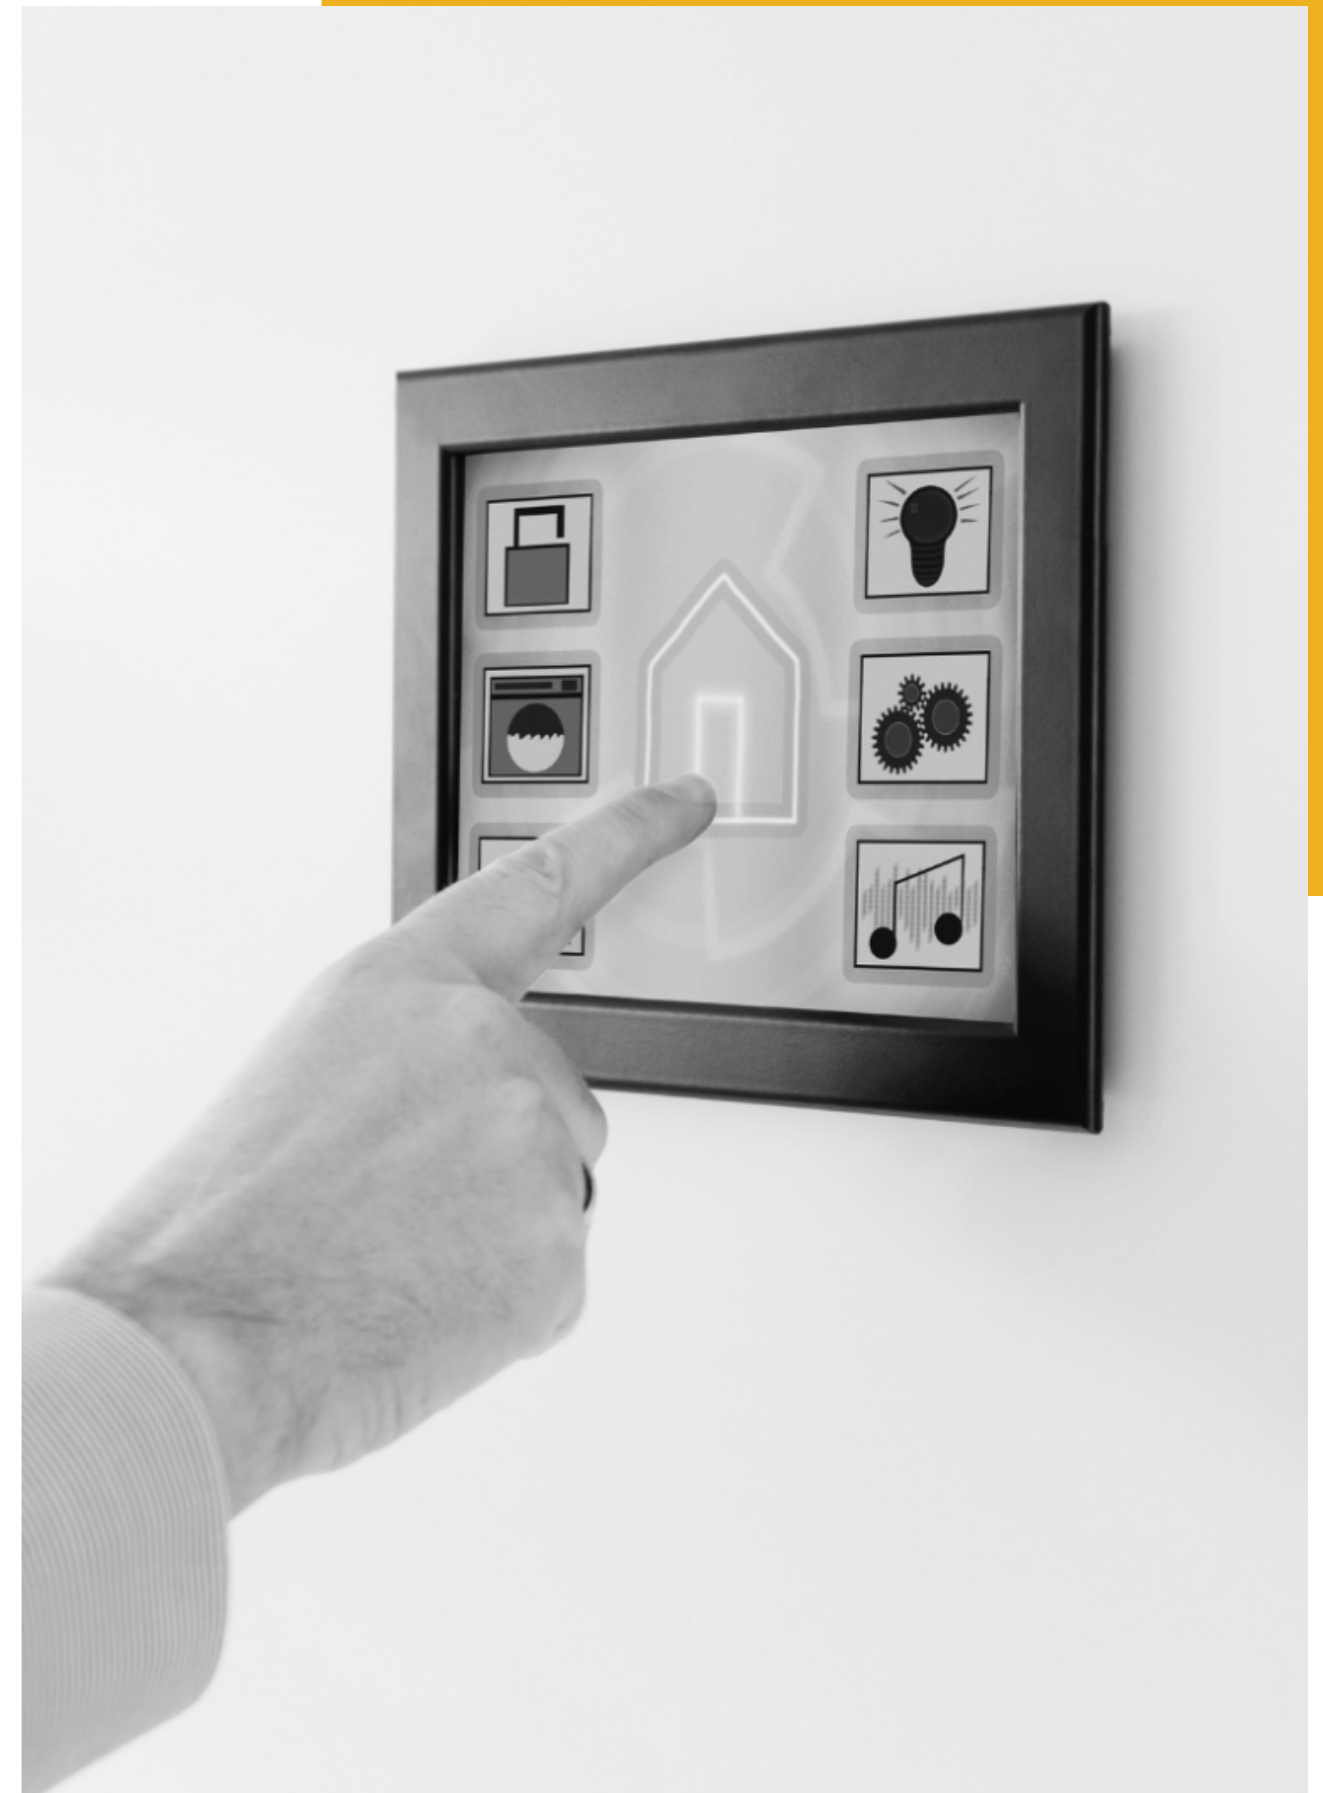

- Manage access to hotel rooms and other areas.

GUEST ROOM CONNECTIVITY SYSTEMS

- Whatever your guest's connectivity needs... we have the solution to truly enhance your guest's stay like Multimedia hub, Power & charging hub, hotel audio and wiring devices.

IPTV SYSTEM

- Guest rooms and public TV on IP network.

DATA NETWORKS SOLUTIONS

- Advanced Stability Analyze, Design and Execute Local and Wide Area Networks (LANs and WANs) as per international specifications with the support of qualified and trained team.
- The team consists of experienced engineers and technicians, those have executed many Government & Enterprise projects including schools, Technical Institutes & Universities as per the international standard specifications.
- ASC Designs Complete Project Management, Installation, Implementation & maintenance of complete Data (LAN&WAN), IP Telephony & Telephone Network System using different Brand Products (i.e. CommoScope, R&M, Datwyler, etc...) for Passive and different Brand Products (i.e. Cisco, HP Solutions & Avaya) for Active Components Switches, Routers and Wireless Solution.
- After the network design has been optimized the most appropriate equipment will be selected for the network implementation as per the customer requirements thru this we can assure with our cost effective solution.

SOLAR SOLUTION

- ADVANCED STABILITY is supplier and integrator of renewable energy solutions for residential, industrial and commercial sectors right across Saudi Arabia.
- Our goal is to improve the efficiency and reliability of clean energy systems, using our range of innovative products and services tailored to provide fast deliver and consistent supply of power to our clients.
- We have partnered with reputable manufacturers to offer our clients the highest-quality, custom-designed and energy efficient solutions that meet the renewable energy needs of the Saudi Arabia solar market.
- With its powerhouse of knowledgeable, experienced and long-standing expert installers, solar advocates and renowned brands, ADVANCED STABILITY guarantees you the best renewable energy products and services.
- Whether developing, financing, operating or installing solar technology, we deliver quality, accessible and sustainable solutions at affordable prices to our residential, industrial, commercial and utility customers.
- Are you ready to make the switch using reliable solar panels , solar in verters and LED lighting for your home, commercial or industrial solar application?
- This is it! Whatever your need, ADVANCED STABILITY guarantees you 100% high quality systems and satisfaction.
